## AGRITOURISM GUIDE

Fresh air, fresh food, and family fun in Oneida County.

# Harvest the Bounty of Oneida County

---

Welcome to the Harvest Oneida County agritourism booklet, brought to you by the Agriculture Team at Cornell Cooperative Extension of Oneida County in partnership with Oneida County Tourism. This 2025 campaign invites you to discover the rich tapestry of agritourism experiences our region has to offer.

## **Why Agritourism?**

Agritourism brings together the best of both worlds—agriculture and tourism—offering visitors a chance to connect with the land, traditions, and people behind our food. Whether you're picking apples, exploring a dairy farm, or sampling local honey, agritourism celebrates the heritage, hard work, and innovation of our local farms. By supporting these experiences, you're not only getting fresh, wholesome products—you're helping sustain local agriculture and gaining a deeper appreciation for the hands and soil that feed our communities.

---

## **Harvest Oneida County Mission Statement**

"Harvest Oneida County is dedicated to celebrating the rich agricultural heritage of our community by supporting local farmers, fostering agritourism, and celebrating the seasonality of Oneida County. Our mission is to connect residents and visitors with harvests, educational experiences, and a deeper appreciation for the land and people that feed us. Through collaboration and innovation, we aim to cultivate a thriving agricultural economy that benefits both producers and consumers."
